

VILLA AMALIA

Residencial

FASE 2

URBANITATION

Villa Amalia is a residential complex of 57 semi-detached houses, organized around large gardens that include children's and adults swimming pool, as well as other communal areas. The careful and modern architecture used, the selection of top-quality materials and the commitment to sustainable architecture make Villa Amalia a unique project, aimed at demanding clients looking for something different.

Villa Amalia project consists in large semi-detached houses, of 2 and 3 bedrooms. The houses featured by the amplitude of all their rooms, luminosity, and an attractive and functional distribution. All the houses have a large kitchen-dining room, with an open concept living room, opened through large windows to the terrace.

EXCEPTIONAL INTERIORS
